**Sweet Darling**

Music:Edison

Lyrics:George Cockle/Mark Cass

Looking out my window  
I can see the clouds are clearing  
There's that lonely moon glow  
Here's the moment we've been fearing

Oh sweet darling  
Now you're on your own, sweet darling  
Oh Sweet darling  
Who ever thought it would end this way

I my mind I see your face, sweet darling  
In my heart I hear your voice, still calling  
In somethings we have no choice, sweet darling

I don't know where you're going  
I only know that I can't follow  
But our love's overflowing  
I'll see you in that bright tomorrow

Oh sweet darling  
Now you're going home, sweet darling  
Oh Sweet darling  
Who ever thought it would end this way

How I'll miss your warm embrace, sweet darling  
In my heart I'll keep a place, sweet darling  
Love can never be erased, sweet darling

In my mind I see your face, sweet darling  
How I'll miss your warm embrace, sweet darling  
In my heart I'll keep a place, sweet darling  
Love can never be erased, sweet darling

In my heart I hear your voice, still calling  
In somethings we have no choice, sweet darling
